Participants:
- Farrell Hohman
- Weihang Zhang
- Kevin Yeung
- Alex Reyes
- Rahul Mohan

Meeting Question Notes:
1. What have you accomplished since the last meeting?
    a. Farrell
        i. Finished the Grocery List requirement with Tim
        ii. Worked on Call Graph
    b. Alex
        i. Rewrote tests for grocery list
    c. Tim
        i. Finished Grocery List backend implementation with Farrell
        ii. Made all lists persistent
    d. Kevin
        i. Came up with a simple hashing algorithm and came up with an idea about how to implement it
    e. Rahul
        i. Worked on image collage implementation and debugged
2. Are there any obstacles in the way of meeting your goal?
    a. Farrell
        i. Testing needs to be updated before we can work on the implementation code
        ii. People aren't able to meet as frequently right before the deadline
    b. Alex
        i. The duplication of work already done is stressful give the short deadline
    c. Tim
        i. Some old tests need to be modified to accommodate the new code
        ii. Travis still not working 100%
    d. Kevin

   i. I am not familiar with the backend since I have never written any of the backend code. It's difficult for me to implement a hashing algorithm without knowing how the code works

  e. Rahul

   i. Image collage implementation is much more complex than I thought -- requires a lot more coding

3. What will you accomplish before the next meeting?

  a. Farrell

   i. Keep working on Sprint 3 Report

   ii. Coordinate with Alex and Tim to make sure that ALL of the tests for everything that has been completed are fully working before the demo

  b. Alex

   i. Rewrite tests

  c. Tim

   i. Write all unit tests for everything

   ii. Login implementation

  d. Kevin

   i. Implement the quick access queue requirements

  e. Rahul

   i. Finish image collage implementation before Sprint 3 demo on Friday

Extra question: What did we accomplish during this meeting?

- Go over what needs to be done before the demos
